SUMMARY

Highly communicative, energetic and dedicated to the growth mindset, I am a recent graduate of an immersive full stack web development bootcamp seeking a position as a junior developer.

SKILLS

- HTML /CSS
- JavaScript
- TypeScript
- Node.js
- Express.js
- JQuery
- RESTful
- CRUD

- Bootstrap
- Bulma
- Skeleton
- Materialize
- Partials
- APIs
- PHP
- React

- Ruby on Rails
- MongoDB
- SQL
- MySQL
- Postgres
- SQLite3

PROJECTS

Pokedex: Pokedex using API and JQuery on a carousel display using basic html, css, and javascript.

https://github.com/UnAngelLily/unangellily.github.io

Plant Parenthood: User interactive Plant directory using MongoDB and Express.js to create, delete, and edit entries. User creation and authorization included

https://github.com/UnAngelLily/project2

Code Fatale: Collaborative project. Uses the Framework React with mongodb to create a database to hold the blog post. Styled using Materialized.

https://github.com/mimnetto/code-fatale

Colorado Adventure: Collaborative project using React for the front end, php for the backend, and postgres for the database. Styled with Bulma.

https://github.com/ddr186/Adventure_Colorado1

Coder's Block: Application blog using the Framework Ruby on Rails.

https://github.com/UnAngelLily/codersblock

EXPERIENCE

General Assembly, Software Engineering Fellow — *Remote*

August 2020 - November 2020

- 80+ hours a week dedicated to Software Engineering Immersion.
- 100+ hours inlab to develop project management skills and collaborating solutions with cohorts.
- Design in both functionality and user experience in web interfaces.
- Focus on fullstack development included programming skills, writing and design in front-end, back-end using html, css, and javascript.
- Technical coursework included Data Structures, Design Patterns, Software Development and internal software. Emphasis on bug fixing, and frameworks.

EDUCATION

General Assembly, Remote — Immersive Certificate in Software Engineering

University of Northern Colorado, Greeley CO — BA in Asian Studies | BA in English | Minor in Music & Psychology
